PRESS RELEASE

Energy Statistics in Kosovo, July 2023

22.09.2023

The Kosovo Agency of Statistics (KAS) has released the "Energy Statistics" for the month of July 2023 with data on the production and consumption of coal, the production and consumption of energy, the import and export of energy as well as the import and export of other energy sources.

Less coal produced in July 2023 than in July 2022

During the month of July 2023, the available gross electricity was 520.26 GWh, while the electricity consumption was 405.2 GWh, or 10.8% greater compared to the same month of the previous year (July 2022).

The share of alternative electricity in total consumption was 11.7%.

Coal production was about 4.43 thousand tons, or 30.6% less than in the same month of the previous year.

Structure of electricity consumption in July 2023

Overview of production, consumption and ratio of electricity in July 2023 to July 2022

MWH	07-2022	07-2023	07 2023 / 07 2022 %
Gross production from power plants	468,629	430,724	-8.1%
Gross production from hydropower plants	15,415	24,360	58.0%
Gross production from wind and solar	24,733	23,185	-6.3%
Import	343,718	268,050	-22.0%
Export	364,976	226,059	-38.1%
Gross electricity available	**487,519**	**520,260**	**6.7%**
Household	199,980	202,085	1.1%
Commercial	97,240	106,471	9.5%
Industry	40,025	44,652	11.6%
Public lighting & others	2,434	2,405	-1.2%
Consumers 220-110kv	18,355	42,029	129.0%
Mining	7,816	7,556	-3.3%
Electricity consumption	**365,851**	**405,198**	**10.8%**
